Interested candidates can send their resumes & other details on the given google form link given below

<https://forms.gle/dvCCBPFH5TBvPt639>

Last Date to apply: 18.10.2026

Program Title: Introduction to Data Science

Eligibility: Tech Graduates of 2026 & 2027

Mode: Online.

Total Duration: 10 hours (daily training of 2 to 3 hours per day).

Training Fee: Completely free of cost.

Equipment & Software Requirements: The entire course may be completed using a mobile phone.

Certification: A course completion certificate will be provided upon successful completion of the course with full attendance.

Course Description & Overview: The program provides an interactive, exploratory view of data analytics, highlighting how data acceleration impacts organizations, governments, and individuals. It covers fundamental data concepts, visualizations, exploratory projects, and career pathways in data analytics using rich multimedia content like interactive labs, videos, games, and quizzes.

Key Modules & Curriculum: Module 1 (Experience Analytics): Covers basics of data analytics, daily applications, data types, and business value. Module 2 (Data Collection and Storage): Focuses on big data characteristics, management, and data flow through pipelines. Module 3 (Artificial Intelligence and Machine Learning): Explores AI concepts, facts vs. fiction, and how big data enables machine learning. Module 4 (Embarking on your Career in Data Analytics): Details job roles in data science, career preparation, and building a portfolio.

Program Objectives: Enable students to examine the promises and challenges of data analytics, explain big data characteristics and data growth effects, analyze the role of data in AI and machine learning, and develop career pathways in data analytics.
